

**Update to OMAA members: NDIS advocacy by OMAA - 28.6.22
8:30am**

Good morning OMAA Members and other interested parties.

The NDIA released the below statement on their website last night.

“Play therapy and other key NDIS services will continue to be claimable under the NDIS.

The recent changes to the description of therapy supports in the NDIS Pricing Arrangements and Price Limits were recommended by the Annual Pricing Review after extensive consultation with the disability sector.

Recent price changes were not intended to, and do not in any way, alter the types of supports that can be provided.

Over the last week we have received feedback that these changes were not clear to all providers and participants. We apologise for any confusion caused.

The NDIS Pricing Arrangements and Price Limits and Support Catalogue have now been updated, so that participants currently receiving these supports and providers delivering these supports will be in no doubt that they will continue after 1 July 2022.”

After investigation we found the following 2 codes are available for continued use from 1 July 2022:

15_056_0128_1_3 Assessment Recommendation Therapy or Training
- Other Professional – Assistance with Daily Life \$193.99.

01_741_0128_1_3 Assessment Recommendation Therapy or Training
Supports - Other Professional - Assistance with Daily Life \$193.99.

We will continue to update you on any further changes. OMAA will continue it's efforts in getting Orientation and Mobility a registered profession with the NDIS so this uncertainty never happens again.

Yours Sincerely,

The OMAA
